Day 02 Ngorongoro Crater

After an early morning breakfast you descend into the Crater for a wonderful game drive (with a picnic lunch on the crater Floor. Ngorongoro Crater is often described as one of the wonders of the world. It is the world's largest intact volcanic caldera and a natural sanctuary for some of Africa's densest animal populations. It is one of the few places where the rare black rhino can be observed in their natural setting. As very few animals migrate in and out of the crater with its 2000 ft. high walls, you can expect to see lions, elephants, zebras, hippos, flamingos, jackals, rhinos, antelopes, many birds and other species. With a bit of luck the Big Five can be spotted during one game drive only.
